What Are BBX Idea Generation Labs?

The BBX Idea Generation Labs are the dynamic first step in our entrepreneurship journey, where creativity meets purpose. These Labs are designed to ignite innovative thinking in young people and help them identify real-life challenges in their communities that can be addressed through entrepreneurial action. They are not just brainstorming sessions—they are idea accelerators.

What Happens in an Idea Generation Lab?

Each Lab combines non-formal learning, design thinking, and peer teamwork to help participants:

- Tackle real-world challenges in sustainability, tech, and social innovation
- Use creative tools like brainstorming, mind-mapping, and storytelling
- Develop and refine ideas through collaborative problem-solving
- Practice pitching and receive constructive feedback
- Learn core entrepreneurship skills like spotting opportunities and shaping value propositions

BBX Idea Generation Labs

The BBX Labs have officially launched across Europe! With a focus on Green Xelerator, Tech Xelerator and Social Xelerator, our Labs are where young entrepreneurs and changemakers come together to ideate, prototype, and build sustainable futures. Each Lab focuses on empowering youth with tools, mentorship, and collaborative energy to bring impactful ideas to life.

Green Labs & Tech Labs in Action:

Here's a roundup of four past and upcoming Labs across partner cities:
