X-elerators in Action!

Over the past months, our Become Busy Xelerator (BBX) community has been buzzing with creativity and innovation! Three thematic Xelerators : Green X, Tech X and Social X , are bringing together young entrepreneurs and trainers from across Europe to turn bold ideas into sustainable ventures. Together, they form the heart of BBX, a European journey for learning, creation, and collaboration.

What happens at our X-elerators?

Green Xelerator brings young people together to rethink how business can serve the planet. Through hands-on workshops and mentoring, participants learn to design environmentally sustainable products and services, explore circular-economy models, and develop business ideas that balance profit with ecological responsibility. It's a space where creativity meets sustainability, turning eco-values into entrepreneurial action.

Co-funded by
the European Union

Funded by the European Union. Views and opinions expressed are however those of the author(s) only and do not necessarily reflect those of the European Union or the Youth and Lifelong Learning Foundation (INEDIVIM). Neither the European Union nor the granting authority can be held responsible for them.

Tech Xelerator focuses on digital innovation and the power of technology to solve real-world challenges. Participants gain practical skills in using AI, coding, and emerging tech tools to build prototypes and digital solutions with social impact. The process takes them from idea to minimal viable product, supported by mentors who guide them through the logic of tech-driven entrepreneurship.

Social Xelerator empowers young changemakers to tackle social issues through entrepreneurship. Participants explore methods of social innovation, empathy-based design, and impact measurement, learning how to build projects that respond to community needs while remaining sustainable. It encourages collaboration, creativity, and leadership rooted in inclusion and positive change.

X-elerators

X-elerators took place across partner cities:

Green X-elerator:

- Germany
- Greece

Tech X-elerator:

- France
- Greece

Social X-elerator:

- Bulgaria
- Greece
