BBX Final Conference in Thessaloniki

We are proud to announce the successful implementation of the Final Conference, which took place in Thessaloniki, Greece, in October, marking the official completion of the project. The event was held over 2 days and brought together more than 80 participants from 7 European countries, including project partners, youth workers, young people, trainers, stakeholders, and representatives of local and European organizations. The Final Conference aimed to present the overall journey of the project, its core objectives, implemented activities, and the most significant results achieved throughout its duration. Special emphasis was placed on the project's contribution to youth empowerment, entrepreneurship, innovation, and social inclusion, as well as on strengthening young people's skills and employability in a rapidly changing socio-economic environment.

Co-funded by
the European Union

Funded by the European Union. Views and opinions expressed are however those of the author(s) only and do not necessarily reflect those of the European Union or the Youth and Lifelong Learning Foundation (INEDIVIM). Neither the European Union nor the granting authority can be held responsible for them.

During the Final Conference

Throughout the event, participants were introduced to the key project outputs, including innovative tools, educational resources, methodologies, and good practices developed by the partnership. Representatives from all partner countries shared their experiences and insights, highlighting the value of transnational cooperation and the exchange of knowledge at European level.

The conference programme included presentations, panel discussions, and interactive sessions, encouraging active participation and open dialogue. These sessions enabled participants to reflect on the project's impact at local, national, and European levels, while also exploring opportunities for the transferability and further use of the project results.

A dedicated session focused on the sustainability and future exploitation of the project outcomes, underlining how youth organizations, educators, and young people can continue to benefit from the project beyond its official duration. The importance of non-formal education, innovation, and inclusive approaches in youth work was strongly emphasized.

The Final Conference concluded with a summary of key takeaways and a collective reflection on the project's legacy and long-term impact. The high level of engagement and positive feedback from participants confirmed the relevance of the project and its contribution to strengthening youth entrepreneurship and social innovation across Europe.

We would like to warmly thank all participants, speakers, partners, and stakeholders for their active involvement and valuable contributions, which played a key role in the success of the Final Conference.
